GitHub: github.com/dhairyamittal28106-alt

Portfolio: tinyurl.com/Dhairya-Mittal-Tech

Profile

Computer Science undergraduate with strong foundations in Data Structures and Algorithms and Object-Oriented Programming. Demonstrates consistent problem-solving ability through finalist positions in national-level hackathons.

Comfortable working across multiple programming languages and exploring diverse areas of software development, with an interest in building efficient, scalable systems and understanding underlying system behavior.

Technical Skills

Programming Languages: C, C++, Java, Python, JavaScript

Familiar With: C#, Kotlin, Go

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, System Design (Basics), Operating Systems

Backend Technologies: Node.js, FastAPI, Flask

Cloud & Databases: AWS, Google Cloud Platform, Redis, Firebase, Supabase

Libraries & Tools: OpenCV, MediaPipe, NumPy, Pandas, Git, Docker, Postman, Linux

Projects

FileShareOnline – Real-Time Secure File Sharing System

fileshareonline.vercel.app

- Built a real-time file sharing platform enabling secure transfer across devices.
- Supported file transfers up to 2GB using OTP and QR-based access within seconds.
- Used Redis for fast temporary storage and session handling.
- Implemented auto-expiry mechanism (15 minutes) ensuring data privacy and minimal persistence.

ETryRoom – AI Virtual Try-On System (In Progress)

- Developing a real-time virtual try-on system using computer vision.
- Implementing pose detection and cloth overlay using OpenCV and MediaPipe.

Nexus – Social Media Platform

- Built a full-stack application with user authentication and post management.
- Designed backend APIs and handled data storage.

Smart Traffic Management System (In Progress)

- Developing an algorithm-based system to optimize traffic flow.

Refrigerator Alchemist

- Built a mobile application recommending recipes based on available ingredients.

Love-Castle – Interactive Messaging Platform

- Developed a platform with mini-games and anonymous messaging features.
- Implemented OTP-based secure chat system.

Hackathons and Competitions

- Finalist – Code With Singularity
- Finalist – TechNex’26
- Finalist – i-Hack (Google AdMob App Development Challenge), IIT Bombay
- Participant – Makeathon 8, Thapar Institute of Engineering and Technology
- Participant – Zennovatio 3.0, Chandigarh University

Certifications

- AWS Academy Graduate – Cloud Foundations
- AWS Academy Graduate – Cloud Development
- Building AI Applications with Google Cloud (Code Vipassana Season 13)
- Quantum Computing – C-DAC Hyderabad and IIT Roorkee (MeitY, Government of India)

Education

B.Tech in Computer Science Engineering	2024 – 2028
Amity University Punjab	
Senior Secondary (CBSE)	2022 – 2024
Guru Nanak Khalsa Senior Secondary School	
Matriculation (ICSE)	2014 – 2022
St. Xavier’s High School	
Additional Qualification: Punjabi (PSEB), 2022 – 2023	

Additional Information

- Active participant in competitive programming and problem-solving platforms.
- Interest in backend systems, cloud computing, and AI-driven applications.
